

Energy savings without compromise.

WD Caviar® Green™
Cooler. Quieter. Eco-friendlier.

WD hard drives with GreenPower™ technology run cooler and quieter, while saving energy. That's smart. By reducing CO₂ emissions up to 13.8 kilograms per drive per year, that's equivalent to taking a car off the road for three days each year. With WD Caviar Green hard drives, you can work in a quieter environment and feel good about reducing your carbon footprint. For more information, visit westerndigital.com.

Reduced power consumption
Ultra-cool and quiet
Environmentally responsible
Massive 1 TB capacity
