

“Brilliant performance that starts when the ‘lights, camera, action’ ends.”

—Jeff Killian
Videographer

My Book® Studio Edition™ II Mac-ready Storage

Jeff Killian has captured some stellar performances during his 20 years behind the lens. But he wants a dazzling performance after the shoot as well. For the speed he needs for fast, smooth editing, Jeff transfers his SxS™ P2 and Compact Flash cards to the My Book Studio Edition II. Pre-formatted for Macintosh®, it holds up to 4TB. With quad interfaces including ultra-fast FireWire® 800, WD My Book's performance powers creativity. And because it uses hard drives with WD GreenPower Technology™, it runs cooler and quieter, while saving energy.

This is just one of WD's growing family of high-performance desktop and portable external drives designed especially for Macintosh users, creative professionals need to look no further than WD for their storage needs. [Read more about Jeff at www.westerndigital.com](http://www.westerndigital.com)

PUT YOUR LIFE ON IT®

Western Digital, WD, the WD logo, My Book and Put Your Life On It are registered trademarks in the U.S. and other countries; Studio Edition and WD GreenPower Technology are trademarks of Western Digital Technologies, Inc. Other marks may be mentioned herein that belong to other companies. Product specifications subject to change without notice. © 2009 Western Digital Technologies, Inc. All rights reserved. One gigabyte (GB) = one billion bytes. One terabyte (TB) = one trillion bytes. Total accessible capacity varies depending on operating environment. RAID 0 (Striped) accesses the full capacity of the drives. RAID 1 (Mirrored) accesses half of the total capacity for data protection.
