

# Resolution so clear, the bad guys might as well wear a **nametag.**

The superior clarity of today's high-res video surveillance relies on the vast storage of WD's AV-class hard drives with WD GreenPower Technology.™ With capacities up to 3 TB they can handle all the data you need to keep. Our exclusive power-saving platform saves energy and cuts operating costs. And features like best-in-class vibration tolerance, power consumption, thermals, and acoustics make them ideal for critical 24x7 applications. So to catch a thief, WD is your clear choice.
